

YOU CAN HELP NATIONAL RIGHT TO LIFE!

Dear Friend,

Have you ever considered the impact you can have on the future of our nation by a simple click of your mouse? Below is a link to the National Right to Life Committee (NRLC) which is the nation's largest and most effective pro-life group.

For 30 years, NRLC has led the fight against abortion on demand which has taken the lives of over 42 million unborn children. NRLC supports and promotes protective legislation in the U.S. Congress and in state legislatures – legislation which seeks to help unborn children and their mothers.

Very soon the full Congress will consider two NRLC-backed bills: the first is a ban on the gruesome procedure known as partial-birth abortion; the second is a ban on all human cloning. The ban on human cloning already passed the U.S. House last month by an overwhelming margin thanks, much in part to the efforts of NRLC. To effectively educate the public about these two important pieces of legislation, and to insure that they reach President Bush's desk, NRLC needs your financial help. Please consider giving a donation of \$50 or \$100 to National Right to Life today. Even \$15 or \$25 will help advance their cause. You can securely donate through the NRLC website by checking out the the link below.

Once you've read this issue of *NRL News*, pass it along to friends, family and neighbors that share NRLC's belief that unborn children need protection. Encourage them to donate as well. As always, thank you so much for your continued support!!!
