**Pro-Abortion President  
Barack Obama and  
Pro-Lifers: One Year Later**

Even before he was elected, pro-lifers knew the threat Barack Obama would pose to unborn babies and the medically vulnerable. One year later, he has lived up (or down) to our expectations. Read all about it, and what you can do to stem the tide, in the January 2010 edition of **National Right to Life News**.

**This must-read edition lays out the entirety of President Obama's pro-abortion initiatives, how pro-lifers have responded, and what you can do in the future to help stave off the most pro-abortion President in history. At the core of the pro-life resistance is building a significant pro-life "presence" in your community and utilizing social networking to its maximum potential. The issue will include many stories, including:**

- Health Care "Reform": Myth and Reality
- The Abortion Lobby's Dream List
- Going Toe-to-Toe at the United Nations
- Obama's Reversal of Bush Pro-Life Policy on Embryonic Stem Cells
- Obama's Reversal of Mexico City Policy; Funds the UN Population Fund
- Social Networking 101
- Raising the Next Generation of Pro-Life Leaders
- The Petition: The All-Purpose Tool to Grow Your Membership
- "NRLChapters.org": One-Stop Shopping for All Your Organizational Needs.
- Networking with Pro-Life Churches and Synagogues
