SUGGESTIONS
FOR PREPARING WILL TO LIVE
DURABLE POWER OF ATTORNEY

(Please read the document itself before reading this.
It will help you better understand the suggestions.)

YOU ARE NOT REQUIRED TO FILL OUT ANY PART OF THIS "WILL TO LIVE"
OR ANY OTHER DOCUMENT SUCH AS A LIVING WILL OR DURABLE POWER OF
ATTORNEY FOR HEALTH CARE. NO ONE MAY FORCE YOU TO SIGN THIS
DOCUMENT OR ANY OTHER OF ITS KIND.

The Will to Live form starts from the principle that the presumption should be for life. If you
sign it without writing any "SPECIAL CONDITIONS," you are giving directions to your health care
provider(s) and health care agent\(^1\) to do their best to preserve your life.

Some people may wish to continue certain types of medical treatment when they are
terminally ill and in the final stages of life. Others may not.

If you wish to refuse some specific medical treatment, the Will to Live form provides space
to do so ("SPECIAL CONDITIONS"). You may make special conditions for your treatment when
your death is imminent, meaning you will live no more than a week even if given all available
medical treatment; or when you are incurably terminally ill, meaning you will live no more than three
months even if given all available medical treatment. There is also space for you to write down
special conditions for circumstances you describe yourself.

The important thing for you to remember if you choose to fill out any part of the "SPECIAL
CONDITIONS" sections of the Will to Live is that you must be very specific in listing what
treatments you do not want. Some examples of how to be specific will be given shortly, or you may
ask your physician what types of treatment might be expected in your specific case.

Why is it important to be specific? Because, given the pro-euthanasia views widespread in
society and particularly among many (not all) health care providers, there is great danger that a vague
description of what you do not want will be misunderstood or distorted so as to deny you treatment
that you do want.

Many in the medical profession as well as in the courts are now so committed to the quality
of life ethic that they take as a given that patients with severe disabilities are better off dead and
would prefer not to receive either life-saving measures or nutrition and hydration. So pervasive is

\(^{1}\) Some states use the terms “attorney in fact,” “surrogate,” “designee,” and “representative” instead of “agent.”
They are synonymous for purposes of these suggestions.
this "consensus" that it is accurate to say that in practice it is no longer true that the "presumption is for life" but rather for death. In other words, instead of assuming that a now incompetent patient would want to receive treatment and care in the absence of clear evidence to the contrary, the assumption has virtually become that since any "reasonable" person would want to exercise a "right to die," treatment and care should be withheld or withdrawn unless there is evidence to the contrary. The Will to Live is intended to maximize the chance of providing that evidence.

It is important to remember that you are writing a legal document, not holding a conversation, and not writing a moral textbook. The language you or a religious or moral leader might use in discussing what is and is not moral to refuse is, from a legal standpoint, often much too vague. Therefore, it is subject to misunderstanding or deliberate abuse.

The person you appoint as your health care agent may understand general terms in the same way you do. But remember that the person you appoint may die, or become incapacitated, or simply be unavailable when decisions must be made about your health care. If any of these happens, a court might appoint someone else you don't know in that person's place. Also remember that since the agent has to follow the instructions you write in this form, a health care provider could try to persuade a court that the agent isn't really following your wishes. A court could overrule your agent's insistence on treatment in cases in which the court interprets any vague language you put in your "Will to Live" less protectively than you meant it.

So, for example, do not simply say you don't want "extraordinary treatment." Whatever the value of that language in moral discussions, there is so much debate over what it means legally that it could be interpreted very broadly by a doctor or a court. For instance, it might be interpreted to require starving you to death when you have a disability, even if you are in no danger of death if you are fed.

For the same reason, do not use language rejecting treatment which has a phrase like "excessive pain, expense or other excessive burden." Doctors and courts may have a very different definition of what is "excessive" or a "burden" than you do. Do not use language that rejects treatment that "does not offer a reasonable hope of benefit." "Benefit" is a legally vague term. If you had a significant disability, a health care provider or court might think you would want no medical treatment at all, since many doctors and judges unfortunately believe there is no "benefit" to life with a severe disability.

What sort of language is specific enough if you wish to write exclusions? Here are some examples of things you might--or might not--want to list under one or more of the "Special Conditions" described on the form. Remember that any of these will prevent treatment ONLY under the circumstances--such as when death is imminent--described in the "Special Condition" you list it under. (The examples are not meant to be all inclusive--just samples of the type of thing you might want to write.)

"Cardiopulmonary resuscitation (CPR)." (If you would like CPR in some but not all circumstances when you are terminally ill, you should try to be still more specific: for example, you might write "CPR if cardiopulmonary arrest has been caused by my terminal illness or a
complication of it." This would mean that you would still get CPR if, for example, you were the victim of smoke inhalation in a fire.) "Organ transplants." (Again, you could be still more specific, rejecting, for example, just a "heart transplant.")

"Surgery that would not cure me, would not improve either my mental or my physical condition, would not make me more comfortable, and would not help me to have less pain, but would only keep me alive longer."

"A treatment that will itself cause me severe, intractable, and long-lasting pain but will not cure me."

**Pain Relief**

Under the "General Presumption for Life," of your Will to Live, you will be given medication necessary to control any pain you may have "as long as the medication is not used in order to cause my death." This means that you may be given pain medication that has the secondary, but unintended, effect of shortening your life. If this is not your wish, you may want to write something like one of the following under the third set of "Special Conditions" (the section for conditions you describe yourself):

"I would like medication to relieve my pain but only to the extent the medication would not seriously threaten to shorten my life." OR

"I would like medication to relieve my pain but only to the extent it is known, to a reasonable medical certainty, that it will not shorten my life."

Think carefully about any special conditions you decide to write in your "Will to Live." You may want to show them to your intended agent and a couple of other people to see if they find them clear and if they mean the same thing to them as they mean to you. Remember that how carefully you write may literally be a matter of life or death--your own.

**AFTER WRITING DOWN YOUR SPECIAL CONDITIONS, IF ANY, YOU SHOULD MARK OUT THE REST OF THE BLANK LINES LEFT ON THE FORM FOR THEM (JUST AS YOU DO AFTER WRITING OUT THE AMOUNT ON A CHECK) TO PREVENT ANY DANGER THAT SOMEBODY OTHER THAN YOU COULD WRITE IN SOMETHING ELSE.**

**IT IS WISE TO REVIEW YOUR WILL TO LIVE PERIODICALLY TO ENSURE THAT IT STILL GIVES THE DIRECTIONS YOU WANT FOLLOWED.**

How to use the Maryland Will to Live Form
SUGGESTIONS AND REQUIREMENTS

1. This document allows you to designate (name) a health care agent who will make health care decisions for you. It also allows you to give instructions about medical treatment decisions that the health care agent must follow.

2. This document will be legally effective if, at the time you sign it, you have not been legally determined to be incapable of making an informed decision and EITHER you are at least 18 years of age, you are under 18 but are married or are the parent of a child, or you are living separately from your parents and are self-supporting.

3. It is helpful to designate a successor health care agent to take over if your first choice is unable to serve. There is space on the form for you to designate a successor health care agent.

4. There are two alternatives as to when your advance directive becomes effective. You should initial one of the two alternatives under numbered paragraph (4) in this document. The first alternative will give your health care agent authority to make medical decisions on your behalf when an attending physician and a second physician certify in writing that you are incapable of making an informed decision (except when unconscious, or unable to communicate by any means, only one physician needs to certify your incapacity). The second alternative will give your health care agent authority to make medical decisions from the time you sign this document.

5. Your agent cannot be an owner, operator, or employee of your treating health care facility or the spouse, parent, child, or sibling of any of the above health care facility affiliated individuals.

6. This document must be voluntarily signed and dated by you or at your express direction. Two adult (18 years old or older) witnesses, who personally know you, must also sign the document. The document is not required to be notarized.

7. Your health care agent may not be a witness. At least one witness cannot be someone who knows that she or he is entitled to any portion of your estate or to any financial benefit by reason of your death. You should tell your agents about this document. You should also ask your agent to keep a copy of this document.

8. You have the right to revoke this document by a signed and dated writing, by physically cancelling or destroying all copies of this document, by orally telling a health care practitioner that you are revoking it, or by executing a subsequent advance directive. If you revoke an advance directive orally to a health care practitioner, the practitioner and a witness to the oral revocation shall document the oral revocation in your medical record. It is your responsibility to notify anyone to whom you have given a copy of this document that you have revoked it.
9. You should tell your doctor about this document. You should also ask your doctor to keep a copy of this document as a part of your medical health record. Give copies of the signed original to your health care agent, family members, and anyone else you think appropriate. Keep the original document in a safe place that will be easily accessible to others in case of an emergency and tell someone where it is. You should consider using Maryland’s Advance Directive registry. This is a secure, electronic database to which authorized access is available 24 hours per day, 7 days per week.

10. This type of document has been authorized by the Maryland Health Care Decisions Act, Md. Health-General Code Ann. §§ 5-601 to -618.

11. You should periodically review this document to be sure it complies with your wishes. Before making any changes, be aware that it is possible that the statutes controlling this document have changed since this form was prepared. Contact the Will to Live Project by visiting www.nrlc.org (click on “Will to Live”) or an attorney to determine if this form can still be used.

12. If you have any questions about this document or want assistance filling it out, please consult an attorney.

WILL TO LIVE FORM

(1)

I, ____________________________________, residing at ____________________________
(Your name) (Your address)  
___________________________________________________________________________,
_____________________, appoint the following individual as my agent to make health care
(Your Phone #)
decisions for me:

(Name of agent)_____________________________________________________________  
(Address of agent)_________________________________________________________  
(Phone number(s) of agent)____________________________________________________

If this individual is unavailable, unable or unwilling to act as my agent, then I appoint the
following person to act in this capacity:

(Successor agent’s name): ____________________________________________________  
(Successor agent’s address): _________________________________________________  
(Successor agent’s phone number(s)): __________________________________________

(2)

My agent has full power and authority to make health care decisions for me, including the power
to:

request, receive, and review any information, oral or written, regarding my physical or
mental health, including, but not limited to, medical and hospital records, and consent to
disclosure of this information;

(a) employ and discharge my health care providers;

(b) authorize my admission to or discharge from (including transfer to another facility)
any hospital, hospice, nursing home, adult home, or other medical care facility; and

(c) consent to the provision, withholding, or withdrawal of health care, including, in
appropriate circumstances, life-sustaining procedures.
(3) The authority of my agent is subject to the following provisions and limitations:

A. GENERAL PRESUMPTION FOR LIFE

I direct my health care provider(s) and health care agent(s) to make health care decisions consistent with my general desire for the use of medical treatment that would preserve my life, as well as for the use of medical treatment that can cure, improve, reduce or prevent deterioration in, any physical or mental condition.

Food and water are not medical treatment, but basic necessities. I direct my health care provider(s) and health care agent(s) to provide me with food and fluids, orally, intravenously, by tube, or by other means to the full extent necessary both to preserve my life and to assure me the optimal health possible.

I direct that medication to alleviate my pain be provided, as long as the medication is not used in order to cause my death.

I direct that the following be provided:
- the administration of medication;
- cardiopulmonary resuscitation (CPR); and
- the performance of all other medical procedures, techniques, and technologies, including surgery,

—all to the full extent necessary to correct, reverse, or alleviate life-threatening or health impairing conditions or complications arising from those conditions.

I also direct that I be provided basic nursing care and procedures to provide comfort care.

I reject, however, any treatments that use an unborn or newborn child, or any tissue or organ of an unborn or newborn child, who has been subject to an induced abortion. This rejection does not apply to the use of tissues or organs obtained in the course of the removal of an ectopic pregnancy.

I also reject any treatments that use an organ or tissue of another person obtained in a manner that causes, contributes to, or hastens that person’s death.

I request and direct that medical treatment and care be provided to me to preserve my life without discrimination based on my age or physical or mental disability or the “quality” of my life. I reject any action or omission that is intended to cause or hasten my death.

I direct my health care provider(s) and health care agent(s) to follow the policy above, even if I am judged to be incompetent.
During the time I am incompetent, my agent, as named above, is authorized to make medical decisions on my behalf, consistent with the above policy, after consultation with my health care provider(s), utilizing the most current diagnoses and/or prognosis of my medical condition, in the following situations with the written special instructions.

**WHEN MY DEATH IS IMMINENT**

B. If I have an incurable terminal illness or injury, and I will die imminently – meaning that a reasonably prudent physician, knowledgeable about the case and the treatment possibilities with respect to the medical conditions involved, would judge that I will live only a week or less even if lifesaving treatment or care is provided to me – the following may be withheld or withdrawn:

**WHEN I AM TERMINALLY ILL**

C. \textit{Final Stage of Terminal Condition}. If I have an incurable terminal illness or injury and even though death is not imminent I am in the final stage of that terminal condition – meaning that a reasonably prudent physician, knowledgeable about the case and the treatment possibilities with respect to the medical conditions involved, would judge that I will live only three months or less, even if lifesaving medical treatment or care is provided to me – the following may be withheld or withdrawn:

IF I AM PREGNANT

E. Special Instructions for Pregnancy. If I am pregnant, I direct my health care provider(s) and health care agent(s) to use all lifesaving procedures for myself with none of the above special conditions applying if there is a chance that prolonging my life might allow my child to be born alive. I also direct that lifesaving procedures be used even if I am legally determined to be brain dead if there is a chance that doing so might allow my child to be born alive. Except as I specify by writing my signature in the box below, no one is authorized to consent to any procedure for me that would result in the death of my unborn child.

If I am pregnant, and I am not in the final stage of a terminal condition as defined above, medical procedures required to prevent my death are authorized even if they may result in the death of my unborn child provided every possible effort is made to preserve both my life and the life of my unborn child.

Signature of Declarant

(4) My agent’s authority becomes operative (initial the option that applies):

_____ When my attending physician and a second physician determine that I am incapable of making an informed decision regarding my health care; or

_____ When this document is signed.

(5) My agent is to make health care decisions for me based on the health care instructions I give in this document.

(6) My agent shall not be liable for the costs of care based solely on this authorization.

By signing below, I indicate that I am emotionally and mentally competent to make this appointment of a health care agent and I understand its purpose and effect.
